

Batch Re Run Order

The Batch Re Run order allows a user to move multiple cars from one 'set of run numbers' to 'another set of run numbers' all in a single action (no need to move one vehicle at a time). This is especially useful if a seller pulls a block of vehicles from the front of the lane.

The screenshot shows the 'Vehicle Orders' interface. At the top, there's a search bar and filters for 'VSN' and 'VIN'. The main content area displays details for a '2019 Ford Fusion SE FWD' from 'SEAY MOTORS LLC'. The vehicle details include VIN (3FA6P0HD5KR122052), color (Silver), and price (\$95.00). Below this is a table of items with columns for Item, Ind, Date, Due Seller, Due Auction, and Payments. The first three rows are highlighted with a red box. On the right side, there are buttons for 'Edit Vehicle', 'Adjustments', 'Batch Re Run' (highlighted with a red box), 'Charges', 'Departure', and 'Edit Title'. A sidebar on the left shows filters for 'In Sale' (66), 'Checked In' (21), 'Re Run' (4), 'Roll Over' (41), and 'No Show' (0).

NOTE: Sales Stickers will not automatically print when you use the 'Batch Re Run' order.

Before doing the 'Batch Re Run' order you MUST clear a pathway for the incoming run numbers. This requires you to select the check box in the Batch Re Run form:
