

Vehicle Block

Select Vehicle Block Application>>

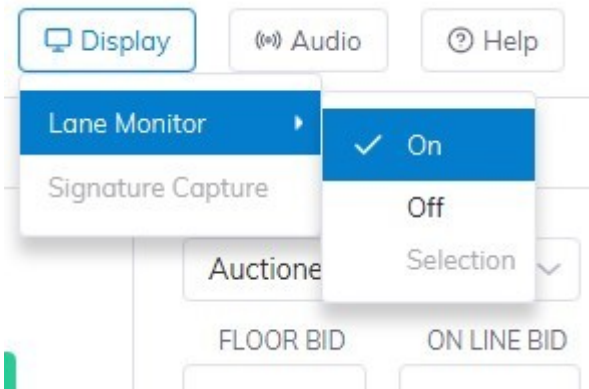

The screenshot displays the Clarksville Auto Auction system interface. On the left is a dark sidebar menu with the following items: Dealer Activation, Dealer Profile, Vehicle Block (highlighted with a blue border), Vehicle Orders, Vehicle Management, Transportation and Service, Parts Inventory, Sale Profile, Account Management, Title Management, Vendor Profile, Location Profile, Payments and Deposits, Maintenance, and Exit. The main content area shows the profile for 'COUNTRY CLASSIC CARS LLC - 892' with a representative 'Russ Noel - 892'. The profile includes fields for Address Type (Business Street), Phone (618-635-7056...), Bus ID (Dealer License), AuctionAccessID (504028), Orig Reg (03/23/2021), Rep Name (Russ Noel - 892), and Dealer Type (Franchise). Below this is a grid of dropdown menus for 'Buyer Standard', 'Seller Standard', 'Title Standard', 'Draft Standard', and 'O/L Standard' across five categories: AUTOMOBILE, MARINE, POWERSPORTS, RV, and SALVAGE. There are also checkboxes for 'Ignore Buyer Fee Override' and 'Ignore Seller Fee Override'. A 'REGISTRATION' section is visible at the bottom.

On the right-hand side Click the '**Sale Date**' then '**Lane**' you want this will launch the lane content in the middle window.

Lane Display

This part of the Vehicle Block Application which from the Main menu.

- Select the Sale Date.
- Select the Lane.
- Select an unsold vehicle in the grid.
- Select the "**Display**" on the top right of the screen.
- Select 'On' from the menu 'Display' dropdown menu

TheLCDy will appear on the screen. This window should be dragged onto the 2nd monitor connected to the PC used in the Lane. As the vehicle is updated with Announcements or Current Bid information the LCDy will reflect these changes.
